

Axis Maintenance Services Ltd Environmental Policy Statement

The Directors of Axis Maintenance Services LTD are aware of, and acknowledges their responsibility both morally, and under legislation, for the Company to carry out its activities in a way that is both supportive and protective of the environment.

Additionally, the Company, as part of its corporate objectives, seeks to continually improve the quality of the physical, social and cultural environment for all employees of the Company.

Special regard will be given to the following:

- Promoting an environmentally friendly approach within the Company
- Reducing the level of both usage and waste of all forms of energy used within the Company
- Establishing a recycling strategy for the Company
- Establishing an environmentally sustainable purchasing strategy
- Reducing waste as far as is possible throughout the Company
- Establishing an awareness amongst the Company as to the benefits of adopting an environmental approach to their activities
- Liaison and, where relevant, collaboration with external environmental groups and agencies
- Rationalisation and improvement of the physical and working environment and the effective, efficient and sustainable use of all resources

The Company operates in a sector which has made great advances in recent years to promote sustainability, the use of natural materials and the preservation of existing natural resources.

By demonstrating a sound understanding and appreciation of environmental issues it is hoped that this will influence customers, other employers and employees, and perhaps more importantly, the workforce of the future as to the benefits of adopting an environmental, and resource sustainable approach to business and industrial activities in the twenty first century.
